- Education department of the Catalonia's Governmentment

SCHOOLS

- Catalan Chess Federation

FORMATION OF THE
TEACHERS

- University of Girona
- University of Lleida

RESEARCH
STUDY

Teaching chess at school...

WHY?

Chess can help to:

- Develop several cognitive and social skills
- Improve the academic performance of students
- Educate on values

- They are, economically, a very viable activity.

Objective of the work in basic competences:

The individual has to be able of:

- Be an act independently
- Think and communicate
- Discover and take initiative
- Coexist and live in the world

CONCLUSIONS

Chess helps to improve the general skills of the people who practice it

London Chess Conference - The Didactics of Chess

Habilitats lingüístiques Pensament crític

Comprensió lectora Originalitat

Habilitats matemàtiques **Creativitat** Planificació

Concentració **Memòria** **Empatia**

Resolució de problemes

Maduresa intel·lectual *Autoestima*

Respecte **Paciència** *Raonament lògic*

PRESA DE DECISIONS *Acceptació dels propis errors* **Honestedat**

Orientació espacial **Càlcul mental** **ATENCIÓ**

WHAT DO WE DO AT SCHOOL?

Some examples

London Chess Conference - The Didactics of Chess

Encourage respect and fellowship

Chess games between students
students of different grades

We give the hand at
the start and end
of the game.

Use of new technologies

Computers, digital boards... can be helpful for the practise and learning of chess.

London Chess Conference - The Didactics of Chess

Work of mathematical aspects

Geometry,
spatial orientation,
logical reasoning

London Chess Conference - The Didactics of Chess

Work in linguistic aspects

Reading

Writing:

- Preparation of letters, interviews, summaries, news...
- Invent couplets, riddles...

- Coment positions, express ideas, games...

Cooperation, integration, coexistence

Cooperative play: pairs, teams...

- Coexistence with people of different ages, gender and culture.
- Friendship.

London Chess Conference - The Didactics of Chess

Another resource for leisure time

Free game

Tournament

EXAMPLE

The chess board: measurements and units of measure

**Reinforce the concept of area and surface.
Insist on the unit of measure.**

London Chess Conference - The Didactics of Chess

The square as a unit of measure:

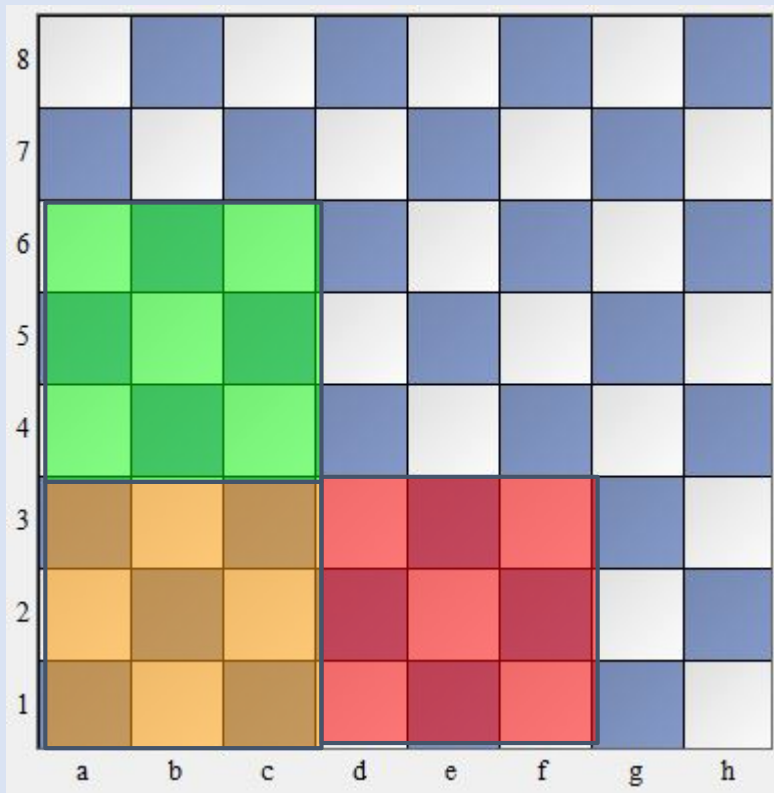

Four squares as a unit of measure:

London Chess Conference - The Didactics of Chess

Nine squares as a unit of measure:

Summary of the observation:

- Concept of area.
- Concept of measure unit.
- See the chessboard as a many units of measure for each measure unit.
- Count the total units.
- Intuitive introduction of decimal numbers.

EVALUATION OF THE PROJECT

The University of Girona has La Universitat de Girona has conducted studies which provide evidence of the improvement achieved by students who have used chess as an education tool in mathematics and language, particularly in aspects of reading.

The University of Girona, from past surveys to teachers who are in the Project, detects their satisfaction with the introduction of chess in the classroom and notes from his thoughts that chess, as well as a direct influence on improving learning, also have an influence indirectly through the creation of facilitating habits such as motivation, improve in the concentration, enjoy of learning through play, increase reflection, inccress of respect for companions...
